

The Label-Aire® Model 3138-N RFID Printer Applicator brings RFID technology to your operation and keeps you ahead of your competition.

The Model 3138-N RFID Printer Applicator delivers on its promise of accuracy, reliability, and ease of use. That translates into lower operating costs and increased productivity for your business.

The 3138-N RFID comes standard with such Label-Aire virtues as easier setup, troubleshooting, and change-over, and more reliable operation while allowing you to easily encode RFID tags.

The 3138-N RFID is based on Label-Aire's most advanced printer applicator, the 3138-N. The 3138-N RFID's advanced features include automatic setup with multiple programmable label pages for easy change-overs to labels of different sizes, rate compensation for improved label placement accuracy, and advanced user-configurable I/O connectivity. All these handy features greatly simplify setup and change-overs. This unit's advanced RFID features include EPC, Class 0, Class 0+, Class 1 RFID tag encoding, fully integrated UHF/EPC print-and-apply technology, user friendly Label-Aire RFID tag formatting software, and an innovative Tag Rejector mechanism. Like all Label-Aire printer applicators, the 3138-N RFID is compatible with any O.E.M. printer on the market.

Put this most advanced RFID printer applicator to work for your company all day, every day. The Model 3138-N RFID. Printer Applicator is built to meticulous quality standards and designed to withstand the most intense operation.
