Agenda Items Description: Resolution on Non-Hourly Staff Raises				
Type of Action Requested: Resolution(s)				
Attachments & Enclosures: Resolutions (2)	Fiscal Impact: Budget Line Item: Budget Summary: Expenditure: Revenue:			

<u>Summary:</u> The City Council has generally decided raises for non-hourly staff on an annual basis. A Resolution with a proposal is attached.

A second Resolution setting wages for the Library staff is also attached. As Council is aware, the Library Board sets the wages for the Library Staff. This confirms their recommendation.

**Background:** Typically, a nearby community has performed a salary survey which I've been able to use for good comparative purposes to consider raises for the coming year. This year, no one has done one, I believe due to the unknown future of the legislative action on municipal tax structures.

Most of the communities I've reached out to have established a cost of living plus merit system, which is pretty simple. The Midwest cost of living average of the last 12 months at 3.2%. Most other communities are also using cost of living adjustments between 3 and 5%.

Then merit is based upon job performance. Our staff performs admirably across the board – everyone has strong points and strong skill areas, and everyone has places to improve. In general, I would be happy to recommend 2.5% merit increases across the board among non-hourly staff. Most other communities are using merit at 2-4%.

This is overall 3.2% + 2.5% = 5.7% increases recommended, with two exceptions: City Manager just cost of living adjustment at 3.2%, and Ambulance Director also just cost of living adjustment at 3.2%, as the Ambulance Director just had an adjustment in October. This 6-month adjustment will also bring the Ambulance Director position into the same annual review as the other non-hourly employees.

**Recommendation:** The attached resolution is drafted to reflect this recommendation. Approval is recommended.

## The City of Monticello, Iowa

<u>Summary:</u> This project has been complex and has many moving parts. One major aspect is the development agreement, which will outline the terms and understandings between the City's infrastructure investment, and the owner.

The other portion of this project is the funding component. I was hoping to have everything proceed together, but that is not feasible.

Staff is working hard to bring the costs down and maintain a reasonable yet successful project. In the meantime, the only action being asked of Council this evening is to schedule a public hearing for the June 16 meeting. Many issues are expected to be worked out between now and June 16<sup>th</sup>.

**Recommendation:** Approval is recommended.

**WHEREAS**, it is necessary to set a date for a public hearing on the Proposed Development Agreement pursuant to Code of Iowa, and

**NOW THEREFORE, IT IS RESOLVED** by the City Council of the City of Monticello, Iowa, as follows:

Agenda Items Description: Discussion and Possible Motion on Sale of City Paving Bricks

Type of Action Requested: Discussion and	ation	
Attachments & Enclosures:	Fiscal Impact:	
Box Store Paver Prices	Budget Line Item: — Budget Summary:	

Expenditure: Revenue:

**Summary:** Citizens have been asking how to purchase City bricks.

City Council needs to provide direction on how to sell (or otherwise dispose of) the City's surplus bricks.

Big box home stores sell paver bricks for under \$1.00 each, but those are precast concrete, typically thinner. Historic pavers like the City's typically retail for \$8 each. Arguably, the bricks were already paid for by the citizens of our community, so it may make sense to retail to Monticello residents at a reduced cost.

In either case, very little Public Works staff assistance should be expected (i.e. cleaning, stacking, sorting, loading). At some point, Council needs to provide direction on how long to maintain the stockpile of bricks, and what the City will ultimately do with them.

Should some be retained to expand the brick "parkway" detail on First Street?

Should some be retained to continue to sell to citizens?

Should some be retained to repair brick streets, or is our goal ultimately to get rid of all brick streets? Should we wholesale the whole lot a bulk buyer/retailer (Nick is contacting a local specialty retailer for a bid).

My recommendation is to sell to Monticello residents for \$1.00 each or \$3.00 each (self service at PW) for a time period not to exceed 60-90-120 days, and wholesale the remaining lot to a brick buyer.

Council direction is requested.

Agenda Items Description:	Discussion and Possible Motion on Purchase of Fire Department	
Turnout Gear		

Type of Action Requested: Discussion and Motion	ion	
Attachments & Enclosures: FD Recommendation on Quotes	Fiscal Impact: Budget Line Item: Budget Summary: Expenditure: Revenue:	

<u>Summary:</u> The Fire Department uniforms (jacket, helmet, pants and boots) are called "Turnout Gear". The National Fire Protection Association standards mandate that this equipment be replaced every 10 years, in order to assure adequate protection to our Firefighters in firefighting and rescue operations.

The turnout gear was typically funded by a FEMA-funded program ("AFG" grant), which was well-funded and relatively easy to obtain. Recent Federal cuts removed all funding for this program earlier this calendar year. The probability of this program returning is relatively small.

Because of the prior grant program, the Fire Department did not have any funding set-aside or budgeted for the replacement of the turnout gear.

That leaves our Fire Department in a lurch, as the FD was counting on this funding to provide replacement turnout gear this year. The pricing and quotes for the new turnout gear are attached. The Fire Department recommends purchasing the FeldFire equipment, at a cost of \$4804 per Firefighter, totaling \$168,140.

There are options for consideration related to this request:

- 1. Do not purchase the turnout gear until the Fire Department appropriately budgets the amount necessary (this puts our firefighters at risk and will increase a variety of insurance rates);
- 2. Wait and see if the AFG grant returns;
- 3. Find alternative revenue sources to pay for the turnout gear;
- 4. Any and/or multiple combinations of the above.

Because equipping the firefighters is a legitimate government function, the city can borrow for the purchase of this equipment. Since the City is getting ready to issue a General Obligation bond, the amount can be included with the bond, and I recommend we do so.

However, this creates a major equity issue as the City taxpayers would be fronting the bond cost, plus financing costs and payments over time, for equipment used in the 80-square mile service territory, of which the City is only 5.5 square miles. The Council needs commitments from our partners (townships) to help pay the bond payments and interest on the purchase of the equipment, if we are to move forward with that option.

For purposes of moving forward, the equipment is included in the amount for the purpose of the public hearing. Council can change the bond amount depending upon the discussion and direction received Monday evening.

<u>Summary:</u> Council adopted a new disposal contract with Republic Services. This Ordinance implements the rate structure necessary to implement and pay for that contract. This ordinance was considered at the April Council meeting and tabled indefinitely for further consideration. It is being brought back with new information outlined below.

**Background:** The attached ordinance adopts the Residential and Commercial garbage disposal rates for the next 5 years, in accordance with the new Republic contract. The rates show a large increase in early 2026, which reflects Republic's requested bump in their disposal fees, in addition the fees have been recalculated to include solid waste fees related to the Jones County transfer station as well as City staff necessary to implement these services through utility billing and other services.

If Council would prefer not to have a large jump in rates in 2026, the rates in the ordinance could be adjusted so that the fee structure spreads that increase out over more than one year. That would require spending down reserves in the sanitation fund to pay for the initial year of increased rates, as the fees would not cover the cost of garbage disposal. Council Direction on this issue is requested, and the ordinance can be amended as Council prefers.

An additional update to the multiple-family recycling was made to correct some billing issues that were caused by the wording in the existing ordinance (i.e. recycling is charged on a per-unit basis, and the increases in fees also apply to the multiple family recycling fees).

Lastly the City's current yard waste disposal program is funded through a \$2 per bill fee monthly that is incorporated into the utility bills. Council has directed Staff NOT to increase that fee at this time, pending inquiry into the cost adjustments for our grinding services. Nick Kahler reached out to our grinding company, and there is no increase in charges planned for the forthcoming contract renewal.

For that reason, the increase in yard waste fees was removed from the draft Ordinance, which will continue operations at a razor margin, but solvent. I am proposing a second Ordinance that would add an annual 3% escalator to the fee, in order to capture additional costs that may occur over time.

Because the landscape waste fees are in a different Chapter, it requires a separate Ordinance.

**Recommendation:** Council input on the rate structure and approval of the ordinance(s) is recommended.
